**Summary of Previous State Board of Education Discussion and Action.**

At the February 2003 meeting, the Board directed staff to review the AB 75 criteria and guidelines with special attention to the Module 1, and, if necessary, make recommendations for modifications to the criteria and guidelines.

---

**Summary of Key Issue(s).**

The Principal Training Program (AB 75) was established to train 15,000 site administrators in specified subject areas. Site administrators receive 80 hours of instruction and 80 hours of individualized support in three areas (modules) from State Board-approved training providers. Approval of the training providers is based on criteria established by the State Board in February 2002.

These criteria also provide guidance to provider applicants seeking approval to be State Board-approved AB 75 training providers. The goal of Module 1 training (Leadership and Support of Student Instructional Programs) is to prepare principals and vice principals to lead their schools through powerful academic improvements that produce improved student achievement and school success.
